

IMMUNATE

FarmPak focuses the power of nutrition on the immune status of the calf and cow.

Immunate is designed to:

1. Maintain a healthy immune system
2. Fight infections that can challenge immune status
3. Provide the tools essential for calf vitality

Why consider feeding Immunate?

Calves:

- ✓ High mortality rate
- ✓ Scours/ diarrhoea
- ✓ Respiratory disease
- ✓ Abnormal appearance - dull coats, sunken eyes, unwilling to stand

Cows:

- ✓ Poor herd performance - milk yield/weight gain
- ✓ Reduced feed intake or feed refusal
- ✓ Scours / inconsistent manure
- ✓ Increased disease rates

This unique combination of Alltech active ingredients helps to maintain the immune status of the dam and the calf.

The Rumen and Gut

- Bio-Mos promotes a healthy gut for nutrient absorption
- Mycosorb maintains animal health

Reduced Disease Challenge

- Sel-Plex supports immune function in transition cow
- Less pathogen colonisation in uterus, udder and gut
- Essential trace elements help the immune cells to fight infection

The Calf

- Sel-Plex enhances the selenium status of calves at birth for better growth and vitality

The Dam

- Bioplex and Sel-Plex give better colostrum quality vital for new calves

IMMUNATE

IMMUNATE

What results can I expect to see?

Trials have demonstrated:

Results in calves

-  Fewer cases of diarrhoea and shorter duration
-  Less treatments required
-  Increased growth performance

Results in cows

-  Better colostrum quality
-  Less variable manure
-  Lower disease rates

Feeding Immunate FarmPak

For best results, feed at the rates below:

	g/cow/day
Lactating dairy cows	75
Dry cows	50
Heifers and youngstock	25
Beef cattle	25

Or as advised by your nutritionist or vet.

Packed in a 25kg bag, ideal for mixing into TMR or sprinkling onto the daily ration. Formulated on a special carrier containing Nupro, a highly available protein source derived from yeast extract

Immunate, Rumenate and Elevate FarmPaks from Alltech are easy to use, unique 'on farm' feeding solutions. Alltech has almost thirty years of proven experience with feeding cows, and our products are used to improve animal performance all over the world.

Now for the first time the combined synergistic benefits of these ingredients are made available to you, helping combat the challenges that can compromise performance in your herd. The FarmPak range of natural solutions is aimed directly at improving rumen function, protecting the gut, maintaining immunity as well as reducing the incidence of mastitis, lameness and fertility.
