

**The NWF Robot Ultra 17 dairy compound feed has been specifically formulated for high yielding cows being milked through a robot system. The ration is highly palatable and robust to encourage cows to visit the robots.**

The high energy nut combines a range of starch and protein sources including maize, wheat, hi-pro soya and protected proteins **Ultra Soy** (Protected Soya), **Ultra Pro-R** (Protected Rape) and **Ultra Starch-W** (Protected Wheat).

NWF Robot Ultra 17 contains generous levels of sugar beet and soya hulls giving digestible fibre for rumen function and to aid butterfat production. It is non mineralised enabling precision mineral nutrition which can be targeted down the feed barrier.

- Specifically designed to be fed through automated milking systems.
- Non mineralised to allow more accurate mineral nutrition down the trough.
- Highly palatable and robust nuts.
- High levels of by-pass protein (MPB) from hi-pro soya and from our unique protected feed range, **Ultra Pro-R** and **Ultra Soy**.
- Very high energy and high glucogenic levels.
- Starch from multiple sources to provide safe digestion including **Ultra Starch-W** (Protected Wheat), maize and wheat.
- High levels of digestible fibre from sugar beet and soya hulls for rumen function and health.

Oil %	Protein %	Fibre %
4.0	17.0	8.5

S+S DM%	NDF DM%	Gluco TN
39.0	26.0	182.5

### Key ingredients typically used

- Sugar Beet
- Maize
- Hi Pro Soya
- Soya Hulls
- Maize Distillers
- Ultra Starch-W (Protected Wheat)
- Molasses
- Barley
- Bakery and Confectionery
- Ultra Pro R (Protected Rape)
- Wheat
- Ultra Soy (Protected Soya)
- Vegetable Oil

**NWF Agriculture is a national supplier of high quality dairy, beef and sheep feeds. Whatever your farming system we can meet your needs for compound feeds, blends, straights and associated products.**

All our feeds are backed by our extensive technical services to ensure livestock perform to their potential. Our sales team provide expert advice and solutions to help farm businesses. We also supply minerals, milk replacers, supplements, speciality feeds, forage additives, grass and forage seeds and fertiliser.
